MSSP INTRODUCTION

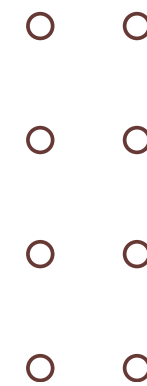

MSSP stands for Marine Subsea Shipping Petroleum — our name reflects complete expertise in marine operations, subsea support, shipping logistics, and energy solutions.

MSSP Energy is the leading brand delivering full-spectrum marine and offshore services: technical supplies, logistics, vessel support, and operational solutions across all maritime and energy environments.

We support a wide range of assets — from small utility vessels and tugs to large commercial ships, offshore platforms, drilling rigs, FPSOs, jack-ups, drillships, floating units, barges, and other energy installations.

Our services ensure operational continuity, safety, regulatory compliance, and maximum efficiency regardless of the asset type or location.

Our aim is to provide maximum uptime and zero unplanned interruptions for our clients — seamless support that keeps operations running at full power without failure.

Established with absolute commitment to quality, reliability, and operational dominance, MSSP Energy has grown steadily over the past five years into the trusted partner for ship owners, operators, offshore contractors, energy companies, and port authorities across the region and beyond.

We go far beyond supply — we deliver tailored, end-to-end support that eliminates weakness, maximizes performance, and crushes every standard. As a true one-stop provider, MSSP Energy destroys complexity by removing multiple vendors — pure, efficient dominance for every asset.

MSSP Energy: Clean Energy. Offshore Leadership.

FOUNDER VISION: GUIDED BY PURPOSE, DRIVEN BY EXCELLENCE

The foundation of MSSP was built on a clear purpose: to create a marine and offshore support company that delivers unbeatable services — zero compromise on quality, safety, or integrity.

The founder saw the massive demand for a provider that could dominate every requirement — from small vessels to the most complex offshore platforms and rigs.

With deep industry experience and razor-sharp insight, MSSP was forged to crush gaps in service delivery through absolute professionalism, iron accountability, and unbreakable client relationships.

FOUNDER'S COMMITMENT

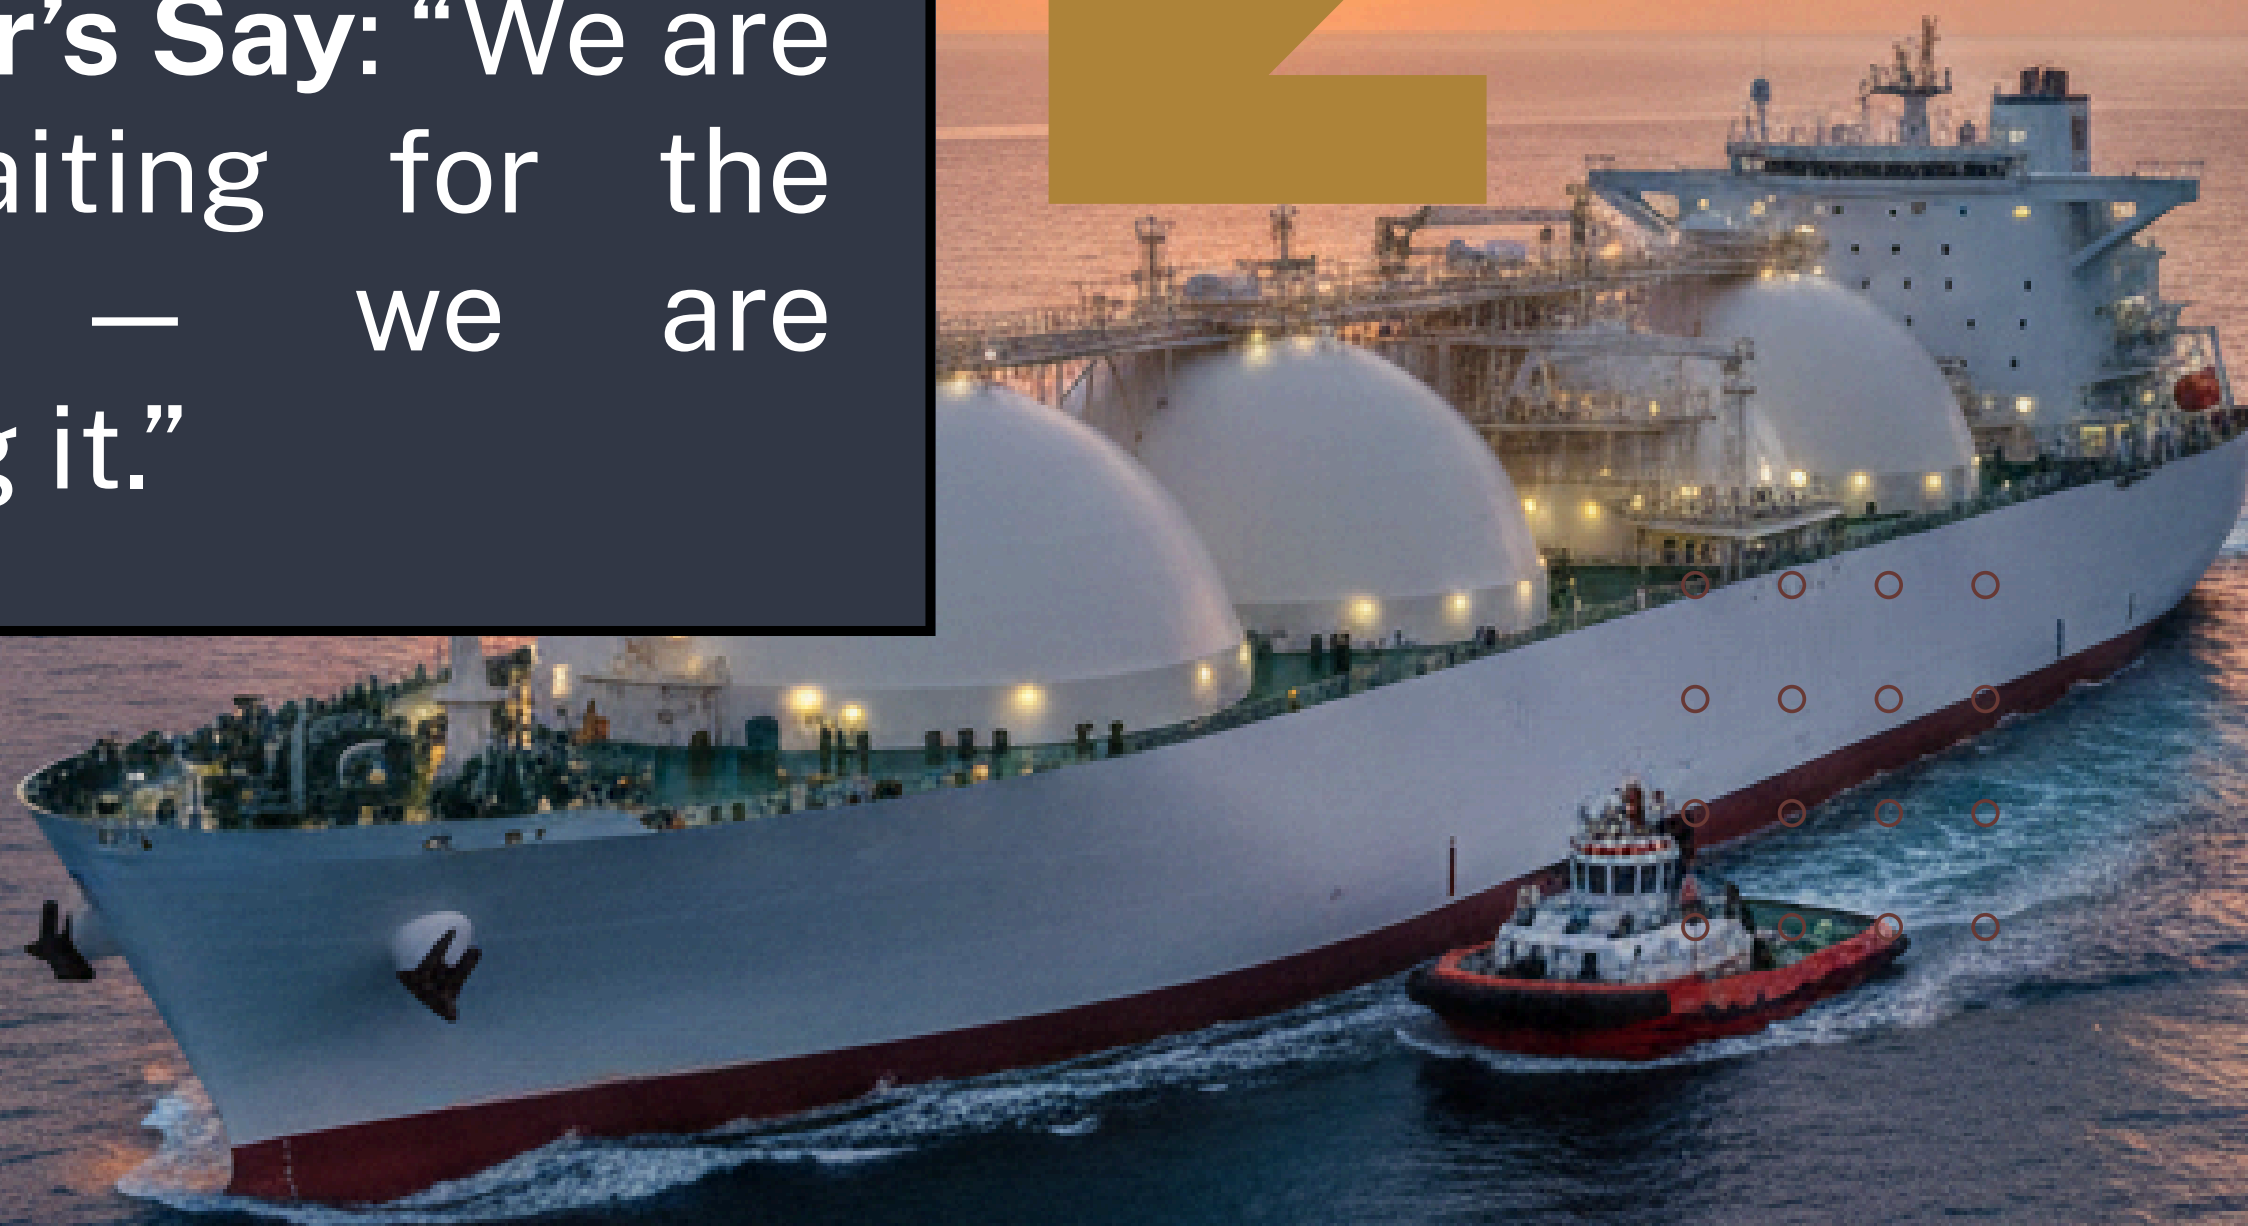

This vision drives MSSP Energy's growth every day — continuous improvement, ironclad partnerships, and total adherence to international maritime and offshore standards. MSSP stays true to its founding principles while dominating the industry.

At its core is the belief that real success in marine and energy support comes from trust, consistency, and absolute excellence. By crushing client needs, operational weakness, crew welfare, and environmental responsibility, MSSP Energy sets the highest benchmarks and remains the unbreakable partner for vessels, platforms, and rigs worldwide.

Partner with MSSP Energy — experience total support backed by integrity, expertise, and pure dominance. Contact us to see how we crush your operational challenges.

Founder's Say: "We are not waiting for the future — we are building it."

MISSION, VISION & CORE VALUES

Mission:

To dominate the maritime and offshore support industry — delivering unmatched, end-to-end solutions that crush efficiency, safety, compliance, and reliability across every vessel, platform, and asset worldwide.

Vision:

To become the absolute leader in marine and subsea support — the only name every operator, owner, and energy company turns to for total dominance at sea and offshore.

➤ **Integrity:** Conducting all operations with transparency and ethical responsibility

➤ **Reliability:** Ensuring timely delivery and consistent service performance

CORE VALUES

M

Mastery Supreme command over every detail — we define precision, quality, and technical superiority that others can only aspire to.

S

Strength Unyielding, battle-tested resilience — forged to withstand extreme pressure and deliver legendary, unbreakable

S

Service Fanatical obsession with client success — we turn every partnership into a decisive, game-changing advantage.

P

Power Raw, overwhelming force — we obliterate obstacles, redefine limits, and drive total industry dominance.

COMPANY OBJECTIVES

- Dominate end-to-end marine and subsea solutions through a single, unbeatable platform
- Guarantee maximum uptime and zero unplanned interruptions through flawless execution
- Maintain total compliance with international maritime, offshore, and safety standards
- Forge unbreakable long-term partnerships based on trust and superior performance
- Conquer new markets — expanding coverage and capabilities across ports, offshore fields, and global energy projects
- Elevate service quality through constant innovation and client dominance
- Lead the energy transition with sustainable practices and net-zero power

BUSINESS INFORMATION

Company Name: MSSP Energy –
Marine Subsea Shipping Petroleum

Industry: Marine & Offshore
Support Services Years of

Experience: 5 Years

Core Expertise: Technical supplies,
marine logistics, vessel/platform/rig
support, offshore coordination

MSSP Energy operates as a comprehensive marine and offshore support provider, delivering essential supplies, logistics, and services to vessels, platforms, rigs, and offshore installations during port calls and field operations. Our network and team crush every requirement — from small vessels to massive energy assets.

➤ TRUSTED SUPPLIER

➤ PORT SERVICES

➤ QUALITY SUPPLIES

➤ TIMELY DELIVERY

We work closely with ship owners, operators, managers, offshore contractors, agents, and charterers to deliver seamless coordination and flawless execution — crushing every service across ports, offshore sites, and field campaigns.

LIST OF SERVICES

**QUALITY
SUPPLIES**

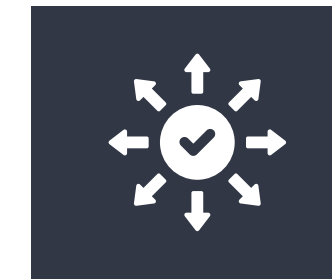

**RELIABLE
SUPPORT**

**TIMELY
DELIVERY**

**TECHNICAL
PRECISION**

**GLOBAL &
OFFSHORE
DOMINANCE**

1-Cabin Stores

— Bedding, linens, towels, toiletries, cleaning chemicals, detergents, laundry supplies, paper products, hygiene essentials — total onboard control.

LIST OF SERVICES

2-Deck Stores

— Ropes, wires, chains, mooring equipment, paints, coatings, primers, tools, lifting gear, navigation aids, deck maintenance — deck dominance.

3-Engine Stores

— Lubricants, oils, greases, spare parts, filters, gaskets, fasteners, cables, bulbs, mechanical tools — engine room power.

4-Technical & Electrical Supplies

— Marine chemicals, adhesives, sealants, welding equipment, hand/power tools, electrical components, wiring, lighting, instrumentation — technical mastery.

LIST OF SERVICES

5-Safety & Navigation Supplies

— Life-saving gear, fire-fighting equipment, navigation charts, communication devices, safety signage, PPE — total compliance and safety dominance.

6-Waste Management & Environmental Services

— Garbage removal, slop disposal, tank cleaning, compliant waste handling — crushing environmental standards.

7-Pest Control & Hygiene

— Professional fumigation, pest management — zero compromise on hygiene and compliance.

LIST OF SERVICES

8-Vessel & Offshore Support Services

— Crew change, port/offshore agency, logistics planning, fresh water & MGO supply, minor repairs, emergency response, platform/rig provisioning, full coordination.

9-Offshore & Specialized Support

— Platform/rig provisioning, ROV/tool supplies, diving equipment coordination, subsea maintenance items, offshore logistics — offshore dominance.

Ready to Dominate Your Operations?

Partner with MSSP Energy — total support that crushes every challenge across vessels, platforms, rigs, and offshore assets.

OPERATIONAL EXCELLENCE

At MSSP – Marine Subsea Shipping Petroleum, operational excellence is central to everything we do. Our structured processes, experienced personnel, and reliable supply chain ensure that every service is delivered accurately and on time. We work closely with vessel masters, chief engineers, and port agents to coordinate requirements efficiently, minimizing delays and ensuring smooth port operations. Our ability to respond quickly to urgent requests reflects our commitment to dependable marine support.

Quality Assurance & Compliance

Quality and compliance are fundamental to MSSP's operations. All supplies and services are sourced and delivered in accordance with international maritime standards and applicable regulations. We maintain strict quality control measures to ensure that provisions, technical supplies, and safety equipment meet required specifications. Our focus on compliance supports vessel safety, crew welfare, and operational integrity.

for reliable,
efficient, and
comprehensive
marine support
solutions.**

Marine Subsea Shipping Petroleum - Company Profile

OUR PURPOSE

At MSSP Energy, we exist to lead the next era of maritime and offshore excellence — powering cleaner, stronger, more efficient operations that set the standard for the industry. We are committed to delivering unmatched performance, sustainability, and reliability — transforming every challenge into a demonstration of strength and every client into a long-term industry leader.

Why this tagline?

- **Clean Energy** — We are fully committed to the future of the industry: driving the transition to low-carbon fuels, sustainable practices, and net-zero operations that protect the planet while powering global trade and energy.
- **Offshore Leadership** — We dominate offshore support — from platforms and rigs to subsea installations — delivering the highest level of technical precision, reliability, and innovation.
- **Together, this tagline declares our position:** We are not following the future — we are defining and leading it through clean, powerful, and industry-leading marine and offshore solutions.

HEALTH, SAFETY & ENVIRONMENT

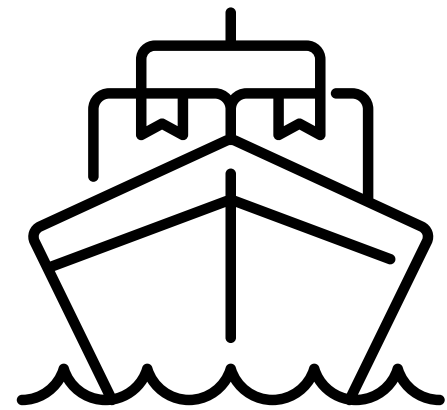

MSSP places strong emphasis on health, safety, and environmental responsibility. We promote safe working practices, proper handling of equipment, and environmentally responsible operations. Our services are designed to support vessels in meeting safety and environmental requirements while reducing operational risk. Continuous awareness and adherence to best practices ensure a safe and sustainable service environment.

Client-Centered Approach

Every vessel has unique operational needs, and MSSP adopts a client-centered approach to service delivery. We offer flexible and customized solutions based on vessel type, trade route, and operational requirements. By maintaining open communication and understanding client expectations, we build long-term partnerships based on trust, reliability, and performance.

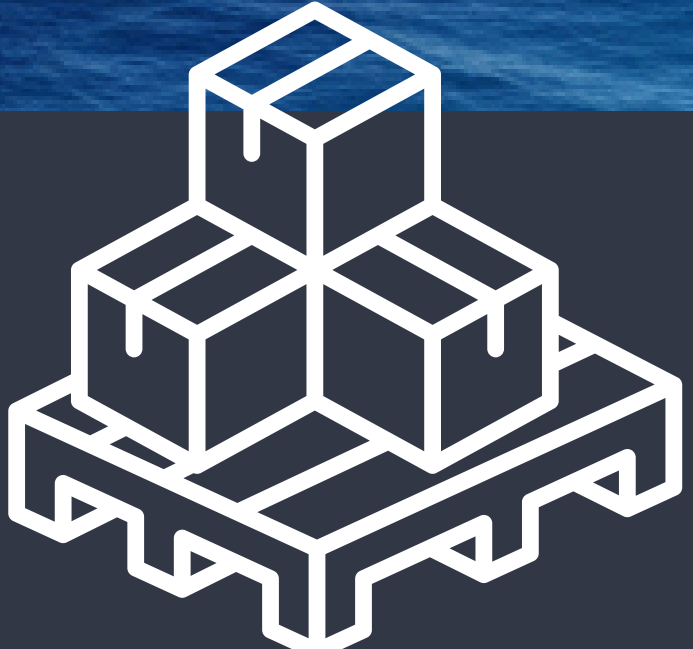

COMPANY PORTFOLIO

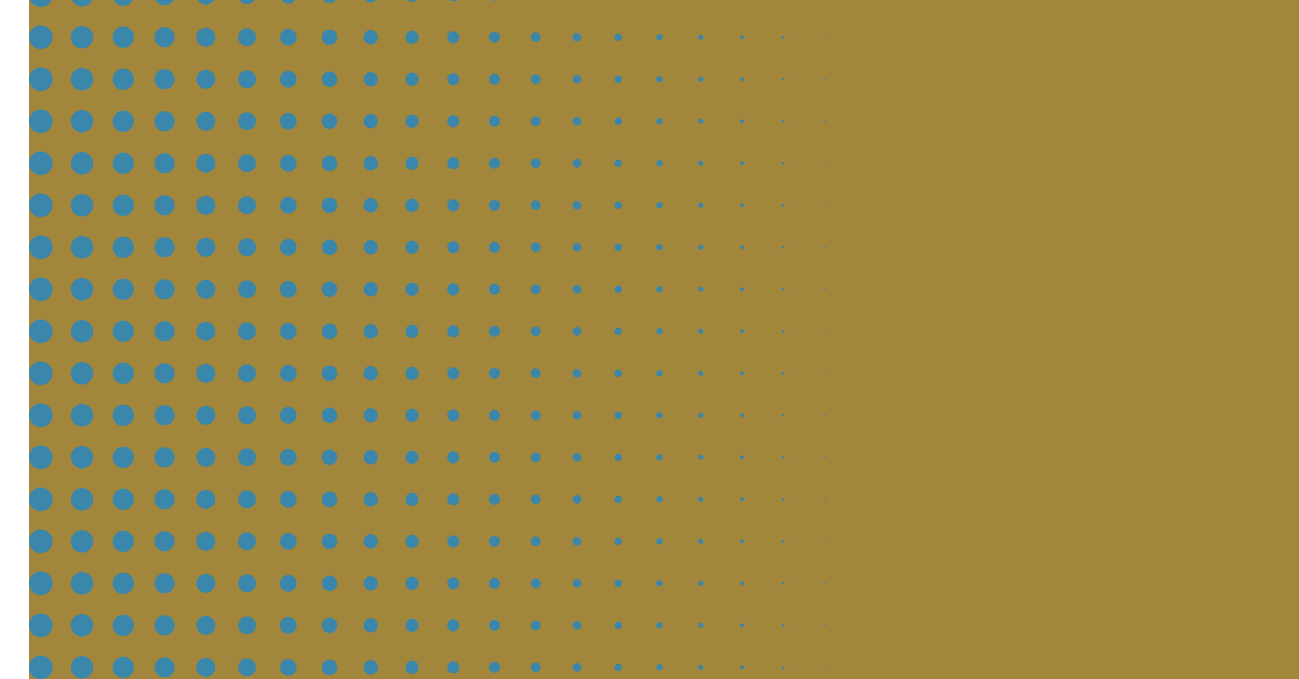

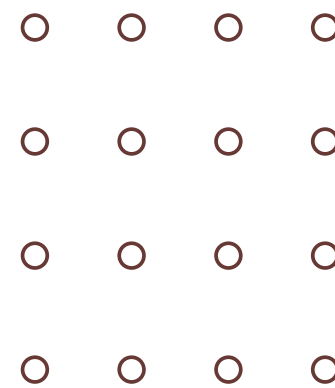

Over the last five years, MSSP has successfully supported a wide range of vessels, including cargo ships, tankers, offshore units, and support vessels. Our portfolio reflects consistent service performance, operational reliability, and strong client relationships.

We take pride in delivering customized solutions that address vessel-specific requirements while maintaining efficiency and cost-effectiveness.

- COMMITMENT TO EXCELLENCE
- TRUSTED PARTNERSHIPS

FUTURE PLANS & INNOVATION

MSSP Energy is aggressively positioning itself for the next phase of the maritime and offshore industry — leading the shift to sustainable, green energy operations.

KEY FUTURE INITIATIVES

- **Marine Subsea Vessel Operations**

Expanding into dedicated subsea support vessels for offshore wind, subsea cable laying, renewable installation, and carbon capture/storage projects — providing full operational support (ROV coordination, diving supplies, subsea logistics, platform provisioning).

- **Sustainable Offshore Leadership**

Building capabilities in green fuel bunkering, low-emission logistics, and net-zero compliance services — helping clients meet IMO 2030/2050 targets while maintaining maximum uptime and operational excellence.

- **Innovation & Technology Leadership**

Investing in digital tools (predictive maintenance, AI route optimization, remote monitoring), green technology integration, and eco-friendly supplies — ensuring MSSP Energy remains the go-to partner for the clean energy offshore era.

KEY FUTURE INITIATIVES

- **Chartering Green Energy Vessels**

Acquiring and operating a fleet of low-carbon, hybrid, and renewable-powered vessels (methanol-ready, ammonia-capable, battery-hybrid, wind-assisted) to support offshore energy projects, green shipping corridors, and net-zero supply chains.

- We are not waiting for the future — we are building it.
- MSSP Energy: Clean Energy. Offshore Leadership.
